

Just announced:

The House Committee will work and vote on ENDA this coming week.

The next step will be a full floor vote in the House, happening soon, just before or after Thanksgiving. What we do now will make all the difference.

We need your energy and grassroots activism right now, to win.

It is critical that your representative hears from you about the importance of ensuring workplace equality for all Americans.

Call your representative on November 19th – a Call-in Day for Equality for people of faith. Urge her/him to support the Employment Non-Discrimination Act, H.R. 3017/S. 1584. Let them know that people of faith stand for fairness.

Call your representative and speak out against workplace discrimination! Dial 202.224.3121 to reach the Capitol Switchboard. Ask for your representative's office and urge them to support the Employment Non-Discrimination Act!

Clergy are often asked to provide moral leadership in heated debate. Urge members of the clergy in your area to sign the faith leaders for fairness letter at GoldenRuleatWork.org. This website also provides additional talking points and resources on ENDA.
